NOTE: IF INTERESTED IN BUYING EITHER FOR PROMPT OR SPRING SHIPMENT PLEASE WRITE FOR FIRM PRICES.

MARKET CONDITIONS: Prices on some items in the grass and field seed line have declined heavily and in some instances the decline has been overdone, with a tendency now to react higher. Bluegrass, Redtop Orchard grass and other items have made such an advance from their previous low point.

ALFALFA: Latest reports from the Northwest reflect higher prices due to crop damage. In Kansas crop is exceedingly short as third cutting turned out quite poor. In general, it may be stated best grades from both the above sections will command a premium. Seed from Arizona and other Southern states will be much brighter in color but we continue to discourage the use of such seed as it will not do well in territory adjacent to Philadelphia.

RED CLOVER: Reports on the Domestic crop continue to come in favorable and it is now certain that crop will be larger than harvested a year ago. French crops are reported unfavorable so that very low prices on French grown seed can hardly be expected to rule.

TIMOTHY: Present low prices are resulting in considerable investment buying both at home and abroad for later requirements. If interested in buying for 1928 Spring or Summer delivery please ask for special prices.

ALSYKE: Prices will be influenced by the Red Clover market. The crop is not large and the prospects are that the final figures will indicate a crop below normal for the United States and Canada.

SWEET CLOVER: Frosts have damaged the crop resulting in an advance from the lowest quotations on the new crop. Prices are still quite reasonable but further advances may be expected.

Prices quoted below are today's values for Philadelphia. Samples sent promptly upon request. Bags not returnable.

Quotations above are for French Grown Red Clover seed re-cleaned over various processes to remove impurities peculiar to foreign grown seeds. French Clover seed may be sold at much lower prices in original heavy burlap sacks. It has always been our policy, however, to oppose the distribution to the farmer of foreign grown Clover seed from original imported packages account of the danger of sowing noxious weed seeds.

Please Remember

***We are handlers and recleaners of locally
grown grain and seed***

Any time your farmers have a crop of some particular variety of seed or seed grain, would be glad to have particulars as we are always interested in strains and varieties which have proven themselves adaptable to the section of the country which we serve.

The Philadelphia Seed Co., Inc.
